(a) MMToM — physical fact, attributed premise, and saved readout

Historical Pro • index 302 • episode 14 • static RGB-frame + text input

1 INPUT

Source frame 96

Source frame 224

Supplied action history

John opens/closes cabinet 4,
then approaches the microwave.

Question premise (given)

John thinks there is no cupcake
inside the microwave.

2 STORED REPRESENTATION

Physical fact · supplied scene text

cupcake → inside microwave

Attributed belief · query premise

John → no cupcake in microwave

Different sources; not a contradiction
inside a single world-state record.

The belief is given, not visually inferred.

3 HISTORICAL READOUT

Candidate-conditioned rule + posterior

A	dish bowl	0.8775
B	cupcake	0.1225
