Same SAM, different identity: dough localization

1 Frozen inputs

Task: joint_attention.

Transcript: should

2 Same SAM rule

Direct identity: food drink or container.

SSC identity: dough.

Same final-field selection rule and SAM backend.

3 Localization result

Direct+SAM IoU: left_bbox=0.003, right_bbox=0.000

SSC+SAM IoU: left_bbox=0.925, right_bbox=0.873

Post-hoc grounding example; all field scores retained. Improvements may come from identity/view selection, not evidence-link reasoning.
