Same SAM, different identity and selected view

1 Frozen inputs

Task: handover.

Transcript: Will all the pasta fit in there? Has to. Kind of has to, yeah.

2 Same SAM rule

Direct identity: utensil.

SSC identity: kitchenware.

Same final-field selection rule and SAM backend.

3 Localization result

Direct+SAM IoU: bbox=0.000

SSC+SAM IoU: bbox=0.926

Post-hoc grounding example; all field scores retained. Improvements may come from identity/view selection, not evidence-link reasoning.
